TENANT SPOTLIGHT

Discover IT solutions with flat-fee billing

Q & A with John French, CEO and Chairman of the Board

Tell us about your business.

[RESULTS Technology](#) is an IT (information technology) managed services provider. What that really means is that we are a technology company that helps small businesses with their IT needs. This can range from being businesses' IT department to helping them out with an IT project.

Enjoy the Spotlight!

Shine the spotlight on your company by replying to this email. A staff member will be in contact with further information.

Our main focus is the people, not the technology. Even though I described it as technology, our goal is to help people with the technology they use every day in their organization. We do this by providing

management, security, business continuity and many other services.

What should potential customers know about your company?

We will sit down and understand their business, initiatives and goals before we even offer a solution. We want to make sure we can provide value and help before we get into a partnership.

John French

What would surprise people about your company?

Our billing is a flat fee so there are no surprises on bills. We strive to make a difference in their organization so IT is not just another expense, but a large differentiator.

AROUND TOWN

TENANT TIP

Submit HVAC inspection, score Royals tickets

The time for summer heat is rapidly approaching! Rest assured by having an inspection completed so your HVAC system doesn't break down during peak temperatures. As an added bonus, if you submit your current HVAC inspection and preventative maintenance contract plus an updated Tenant Data Sheet to [Amy Weber](#), you are eligible for two tickets and a parking pass to an upcoming Royals game. Tickets are limited so submit yours today!
